SUMMARY

Electronics and Communication Engineering undergraduate with a strong foundation in software development, embedded systems. Proficient in Python and C, with hands-on experience in developing intelligent hardware-integrated systems. Passionate about building real-world AI-powered solutions in the field of consumer robotics.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering Sep 2023-
Dayanand Sagar Academy of Technology and Management, Bengaluru, India.
CGPA: 7.9
Relevant Coursework: Image processing in MATLAB, PCB design using Design Spark

Senior Secondary Education Aug 2021 – Mar 2023
Masters PU College, Hassan, India
Percentage: 93.8%

TECHNICAL SKILLS

Languages	Python, C, HTML, CSS, JavaScript, Arduino.
Tools	VS Code, Git, Cadence, KiCad, Solid works

PROJECTS

Real-Time Cloud-Based Energy Monitoring System
Developed an IoT-based smart energy monitoring system that collects real-time electrical data and publishes it to the cloud via MQTT for remote monitoring. Implemented dynamic slab-based billing and an interactive dashboard for visualizing consumption trends, alerts, and cost summaries.

Smart Post-Accident Detection and Response System
Developed an IoT-based Smart Post Accident Detection and Response System using sensors, GPS, and GSM modules to automatically detect vehicle collisions, pinpoint location, and send real-time emergency alerts to contacts and authorities, enabling faster rescue response.

Analog Design of Low Dropout Regulator using CMOS 45nm Technology
Designed and implemented a CMOS-based Low Dropout Regulator (LDO) in 45nm CMOS using Cadence Virtuoso. Completed full custom IC design flow including schematic, DC/transient simulation, layout, DRC, LVS, and Quantus RC extraction. Achieved 2.45 V regulated output with 13.62 dB PSRR. Verified post-layout stability under parasitic effects. Fabrication-ready layout with zero DRC/LVS errors.

ACHIEVEMENTS

State-Level Project Expo - Jnana Cauvery 2K25 – 1st Prize	May 2025
INNOVONX Hackathon, DSATM – 3rd Prize	April 2025
State-Level Project Expo - Vyuhanthra 2K25 – 2nd Prize	October 2025
Best Project Award – BMS Project Expo 2025	November 2025
Presented our Research Paper in EPREC Conference conducted by IIT Bhilai and NIT Jamshedpur	January 2025
